LIMESTONE - PUMICE

Item Code: **LIM3**

A heavy-weight linen cloth with a rugged gravelly texture reminiscent of the strata found in cracked limestone. This striking tonal effect is created using yarns of subtly contrasting neutral shades in varying thicknesses spun to enhance the naturally occurring irregularities of linen. Very durable yet with a soft and supple handle ideal for upholstery, walling, or curtains, it's available in four geological shades to create a feeling of natural comfort in any space.
