ATTENBOROUGH CUSHION WITH ZIP DETAIL - POLAR

Item Code: **ATT1C**

This Attenborough cushion is made with the circular economy in mind as the design includes fabric selvedge's which would usually be discarded. These fabric edges are used to create a fringe detail, encasing the zip on the face of the cushion. The back plain side of the cushion can be used for a simpler aesthetic. Attenborough fabric is made from a robust mixture of twisted wool boucle yarn, tightly woven onto a linen base.

Composition: 37% WO, 34% LI, 21% CO, 8% PL

Dimensions: 55x55 cm / 22x22 "

Usage: Cushion

Weight: 1.95 kg
