## **RECYCLED GLASS BEADS MEDIUM - GREEN**

Item Code: BEAD4

Limited Edition. Please contact our Client Liaison team for more information. These glass beads are a stunning option for finishing décor. Originating in Ghana, these glass beads are traditionally handmade using recycled glass. The colours are obtained by using old glass bottles, including both medicine and beer bottles. The glass is crushed and placed in a circular mould, then fired in a clay kiln. Once cooled, the beads are washed and rubbed against a rough stone to smooth away coarse areas. They are then polished with sand and water, and finally brushed with oil for added sheen.

Composition: Recycled Glass

Dimensions: 35 cm / 14 "

Usage: Accent

Weight: 0.35 kg

Intrastat Commodity Code: 70181019
