SHEPHERD'S CLOTH - FLEECE

Item Code: **SHP1**

Shepherd's Cloth is a staple linen. It is a beautifully simple fabric woven from high quality flax in a specialist mill. The fabric is stonewashed using pumice stones to give it softness and flexibility. Shepherd's Cloth has a high rub test, which makes it perfect for upholstery, but its medium weight allows it to become an elegant curtain or to be used for accessories. It comes in a palette of colours found in nature which can work in harmony for calm environments.
